---

Attention all vehicle related businesses:

Since 2009 our industry has been devastated by policy changes within the Secretary of State's office by their handling of Mechanic's Lien which we believe to be in violation of Illinois law.

I have tried repeatedly to get them to change their policy to no avail. Because the Secretary of State's unfair policies impacts not just my livelihood but everyone in the car service and repair business, I believe a more effective way to get the situation corrected is to tackle it from the perspective of a statewide organization rather than just one individual. We have recently formed the Illinois Vehicle Repair Association (IVRA) and need your support.

We plan to retain the services of lobbyist Margaret Vaughn, who has an impressive track record of having passed over 90 laws at the Statehouse in her 20 years in business. She has represented a diverse client base including Illinois Roofing Contractors Association, the Illinois Fire Sprinkler Contractors, Illinois Firefighters Association and Illinois State Dental Society just to name a few. Prior to lobbying she served on the staffs of the Senate President and House Minority Leader. You can learn more about her background through her website [www.margaretvaughnconsulting.com](http://www.margaretvaughnconsulting.com)

A new legislative session will start this January and because of the recent elections over 40 first time legislators will be sworn into the Statehouse. It is important that we have an advocate representing us so they become educated of our issues and to sheppard our legislation through the Statehouse.

Marion J. Weglarz
